Excellency, dear friend,

Although we follow the political development in Yemen with increased disappointment, frustration as well as sorrow we were in fact extremely shocked to hear the news about the terrorist attacks which happened last Friday in Sana'a. Whoever was directly and/or indirectly responsible for this crime acted in unbelievable and unacceptable inhumanity.

We condemn these crimes and would like to convey our deepest condolences and solidarity. Our sympathy goes first to the families of all victims and then to all people of Yemen.

We sincerely hope that this criminal attack will mobilise many peace-loving people in Yemen, in the region as well as in the whole world to put more pressure on the various political groups in Yemen to find a solution for the internal problems and conflicts.

Please accept the assurances of our highest consideration,

Karl Blecha e.h.  
President of SAAR
